RUPARELIA FOUNDATION
CRANE CHAMBERS, KAMPALA ROAD

Dear Sir,

RE: SAVE THE 33

Did you know that 33 mothers lose a child to a water related illness every day in Uganda?

According to UNICEF, drinking water from contaminated water sources is one of three major child killers claiming more than 33 every day in Uganda.

Nyonta Relief is partnering with 33 Role model mothers to host an event on 30th **November 2018**, in an initiative duped **SAVE THE 33** that will provide safe, clean water to 330 fellow mothers and their families.

We invite you to join us in laying the foundation of a better life for almost 2000, fellow Ugandans. Take the challenge and say NO to child death by preventable water borne diseases by donating the Nyonta water Points (each at Shs 200,000) to mothers from Lubaga Division who have either lost a child to contaminated drinking water or are at a risk.

Once every two months, 33 exclusively invited role model mothers will be joined by health specialists to dialogue with underprivileged mothers on how to promote household health through safe drinking water and to prevent child loss caused by contaminated water.

We have partnered with Aqus Global, a USA based company. Aqus manufactures a revolutionary, user friendly water filter that doesn't require electricity, pumps or chemicals. Just one filter is able to produce 72 Jerricans of safe drinking water every day that will transform lives of these less privileged mothers and their families.

JOIN US. SAVE THE 33.

Thank You,

Owek. Joyce Nabbosa Ssebugwawo
