21st October, 2015

Dear Sir,

RE: REQUEST FOR SPONSORSHIP FOR MOVEMBER 2015 (PROSTRATE CANCER AWARENESS):

Victoria University Healthcare Centre wishes to seek sponsorship from **THE RUPARELIA FOUNDATION** towards Movember 2015 (PROSTRATE CANCER AWARENESS). Movember is an initiative started to create prostate cancer awareness and encourage men to test for prostate cancer.

Prostrate Cancer is the most common form of cancer in Uganda. Every year more than 1,500 Ugandans are diagnosed with prostate cancer and many more may have prostate cancer but not know about it. (*Prostrate Cancer Africa*).

Uganda also has a significantly below global average survival rate of this cancer due to late detection. Almost 25% of patients succumb within a year of presentation and there is a high rate of patients lost to follow up, this according to Uganda Cancer Institute. Yet prostate cancer when detected early can be easily managed or cured.

Its is because of these sad statistics that Victoria University Healthcare Centre and other partners decided to take up the initiative of promoting prostate cancer awareness and testing.

With your partnership we hope to provide the following for the entire month of November 2015;

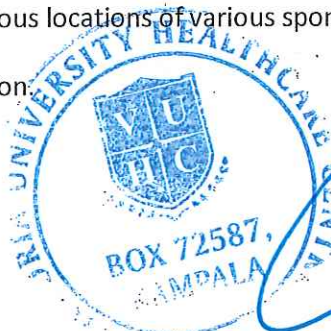

1. Provide free cancer screening for patients
2. Provide free consultation for patient
3. Discounted specialist consultations if needed.
4. Continuous weekly awareness campaigns through the sponsor Media houses
5. Prostrate cancer talks at various locations of various sponsors

We hope for a successful consideration.

Yours Sincerely

Dr Chirag Kotecha

Executive Director, Victoria University Healthcare Centre
